

Leavenworth County Receives Broadband Acceleration Grant

Governor Laura Kelly recently announced that Leavenworth County was one of 11 county recipients to receive a Broadband Acceleration Grant. The program provides more than \$10 million of investment in high-speed broadband access across the state of Kansas.

The projects were selected following a competitive funding round and all proposed projects were made available for public review. To learn more [click here](#).

Networking, Marketing and Project Activity

LCDC has received **26 new project leads this year so far and is currently working on nine active projects**. LCDC will continue to participate in regional and national events with site selectors. Marketing for the county's business parks continue to be a high priority through an ongoing email blast campaign with the business parks predominately featured on the LCDC website.

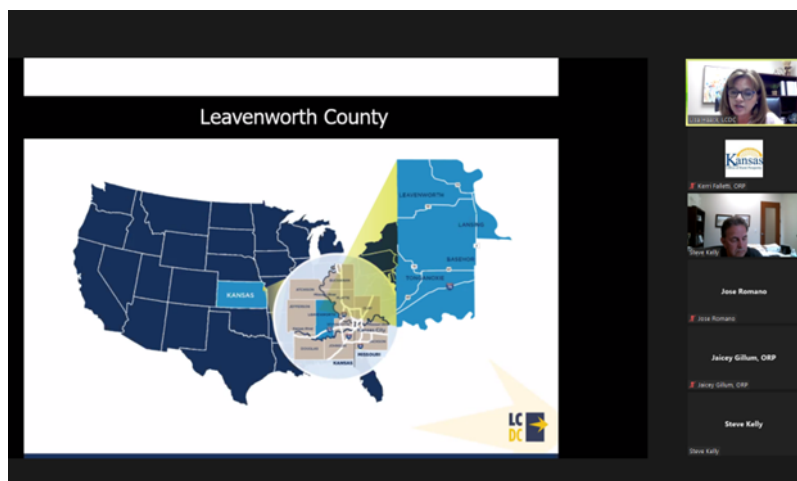

➔ New Investment at Urban Hess Business Center

DL Granite & Design, a local Leavenworth County business specializing in new construction and remodeling of kitchen and bathrooms, announced \$1.5 million in capital investment for a 6,000 square-foot facility at the Urban Hess Business Center.

➔ Leavenworth County Featured at Grass Roots Economic Development Session

LCDC Executive Director Lisa Haack, presented how Leavenworth County planned for industrial development by building and enhancing its business parks at the [Kansas Department of Commerce's Grass Roots Economic Development 201](#) virtual session in June. The ED 201 sessions are designed to delve deeper into issues important to rural Kansas communities.
